La Tulipe Noire

Zwanenburg

LA TULIPE NOIRE. The nearest approach to the so-called Black Tulip; deep maroon-black with a velvet sheen. The darkest of all the Darwin Tulips. Effective with orange and deep yellow kinds.

ZWANENBURG. Large pure white flowers of good substance with black anthers. Excellent keeper. Quite outstanding and a general favorite. Slightly earlier than the average Darwin.

BARTIGON. Darwin. Rich crimson-scarlet which becomes brighter at the margin; white base with rich blue halo. A flower of large size and excellent texture. Black Anthers. One of the best in its class.

FARNCOMBE SANDERS. A bright shade of scarlet, with a clear white base, contrasting well when the flower is fully open. Broad-petaled flower of large size. Excellent for border plantings.

PRINCESS ELIZABETH. A beautiful rose-pink variety, deepening with age. Exquisitely shaped, long flowers, when fully opened, are borne on good stiff stems. Large, like a rose when first open.

PRIDE OF HAARLEM. Magnificently formed flower of immense size, brilliant, deep rose, shaded scarlet, with light blue base. This variety is most widely known for its stately habit and glorious color.

Bartigon

INGLESCOMBE YELLOW. A beautiful variety. Size, form and height greatly resemble the Darwins, so much so that it is frequently called the "Yellow Darwin." Very good.

DORRIE OVERALL. A lovely shade of Petunia Purple. Very large flowers of superb color carried on strong stems. A showy variety for garden; beautiful and long lasting.

MRS. J. T. SCHEEPERS. Finely formed, oval-shaped flowers of clear, deep golden yellow, superbly poised on tall, sturdy stems. Growth is very vigorous and the blooms are enormous. Long lasting qualities.

PRIDE OF ZWANENBURG. Very bright salmon-red with white base slightly edged blue; black anthers. The flower is huge, of beautiful form and long lasting and is carried on a very tall straight stem.

WHITE GIANT. This is a perfect white tulip with black anthers. It has correct Darwin form, straight, stiff and tall stems; flower petals are thick. Without question one of the best whites offered.

CHARLES NEEDHAM. Large, bright brilliant scarlet-red flowers with black base and anthers. A magnificent variety with stiff, tall stems. Long lasting. A very fine red Darwin.

Madonna Lily

PAPER-WHITE NARCISUS

These are to be grown indoors in pebbles and water. The large, pure white blooms are borne in clusters and are highly prized for their beauty, fragrance, and the ease with which they can be grown. Place the bulbs in a shallow dish with pebbles to hold them in position. Half cover them with water and keep in a cool dark place for about ten days before bringing them into a warm light room.

6 for \$.98 12 for \$1.69 24 for \$2.69

The Stately **LILIES**

No other plants possess as many charms as Lilies. Available in such a variety of shapes and rich colors, they are stately in form and of such delicious fragrance, they will always stand out prominently in your garden. One of the most desirable of all flowers. Plant them in groups or as a border.

Lilies need good, well-drained garden soil. A sunny location is desirable; the base of the plant should be somewhat shaded.

LILIUM SPECIOSUM RUBRUM

Delicate wavy flowers of deep pink flushed red and shading lighter at the edges. Four to eight blooms are borne on each sturdy 3 to 4 ft. stem. Plant 9 inches deep in full sun in early fall. Blooms August and September. An excellent Lily for the late summer garden.

2 for \$.98 4 for \$1.79 6 for \$2.59

Now is the Time to Plant

For That First Display of Spring Sunshine in Your

Golden
Harvest

The beauty of Daffodils is unquestioned and these flowers form a leading feature in almost every Spring garden. They flood the outdoors with the golden color of spring just when another gloomy winter day would be unbearable.

Plant in well-drained, sunny soil. Set the bulbs 8 inches deep and 6 inches apart in September. It will not be necessary to move them for four or five years.

GOLDEN HARVEST-Trumpet

A giant among the giants. The flower is a rich, pure deep yellow with broad perianth petals and large trumpet. One of the earliest varieties to bloom. Outstanding and in every way a satisfactory, as well as a sensational flower, both in the garden and as a flower for cutting.

5 for \$1.00 10 for \$1.89 20 for \$3.39

FORTUNE - Large - Cupped

DAFFODILS

Garden Next Spring!

MOUNT HOOD-Trumpet

The flower is of excellent form, with pure ivory-white petals and large creamy white trumpet which changes to pure white when in full bloom. Heavily flanged at mouth. It flowers freely, looks good in the garden, and makes a fine cutting flower.

5 for \$1.19 10 for \$2.19 20 for \$3.98

CHEERFULNESS-Poetaz

This exquisite double Poetaz resembles a gardenia in form of flower and is one of the loveliest of all the double Narcissus. The bloom is made up of a creamy white perianth and a mass of cream-colored petals among which a few short yellow petals are intermingled. Deliciously fragrant flowers in clusters of 3 or 4 are carried on heavy 10 to 12-inch stems.

KING ALFRED

Giant Yellow Trumpet

WORLD'S MOST POPULAR DAFFODIL

A king among the fine varieties. A magnificent daffodil of a rich, lustrous golden yellow throughout. The expanded trumpet measures 2½ inches in diameter, the perianth proportionately large, and segments gracefully twisted. Extremely vigorous habit. Tall, large, and long-stemmed. The most popular and most widely used variety for forcing. One of the best daffodils and of long lasting quality. They multiply with amazing rapidity, doubling in number each year. Another reason for their popularity is that they harmonize with all other flowers. Every garden, large or small, should have a planting of this splendid flower to add a splash of color to the Spring garden. Also very good as a cut flower. This is really an exquisite variety.

HYACINTHS

For Outdoor Bedding

Hyacinths have been grown and loved for their color and fragrance since ancient times. Their name is derived from the mythological character Hyacinthus. Their prim, straight spikes look well planted in beds and borders, along a walk or in masses in the foreground of a shrub border. And when they are combined with other bulbs like Narcissus or planted beneath a spring-flowering shrub, they can be an inspiring sight. Hyacinths should play a part in every Spring garden.

Prepare the ground well by digging it and adding some fertilizer before planting. Set the bulbs 5 to 6 inches deep and about the same distance apart, in late September or October. If the leaves are allowed to reach full growth without being cut back, the bulbs may be left undisturbed from year to year.

LA VICTOIRE. Brilliant carmine-red; one of the very finest red varieties for bedding and forcing. It retains its superb color to the end.

PINK PEARL. Absolutely the finest of the new deep rose shades. Large well-filled truss of excellent color and substance.

L'INNOCENCE. Pure white. Extra fine truss with very large bells. Good substance; held on strong stems.

OSTARA. China-blue. Truss and bells of fine form and excellent color. Ideal for any garden planting.

YELLOW HAMMER. Compact spike well set with creamy yellow bells. Ideal for bedding.

BISMARCK. Flowers bright blue shaded violet in center of petals. Extra broad spike; best in its color.

Any of the above, 5 for \$.69; 10 for \$1.29; 20 for \$2.39. Size 15-16 cm.

GIANT HYACINTH BULBS

For Gorgeous Blooms Indoors This Winter

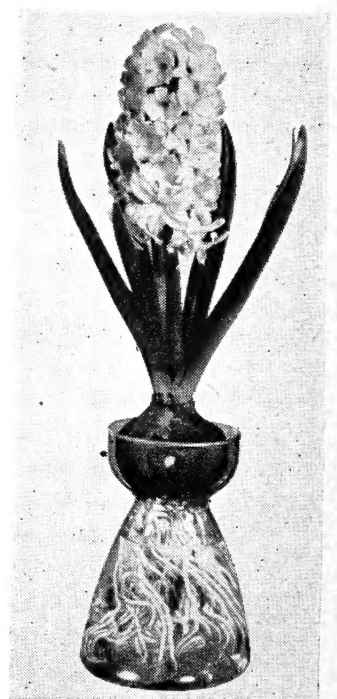

Have you ever grown a gorgeous, big, richly scented Hyacinth indoors in winter? If not, you will be delighted to see how easy it is to do. You will need one of our exhibition-size bulbs and a Hyacinth glass. Before placing the bulb on the Hyacinth glass the rootbase and rootplate must be cleaned, so that all remains of the old rootplate and old roots are removed. When glass and bulb are clean, place the bulb in the top of the glass and fill the glass with clean, cool water until the rootbase is touched. The glass is then to be placed in a cool, dark room until the top-growth is 4" above the bulb. Preferred temperature not over 50° F. When 4" top-growth has been made, the glass may be taken to a window in a warm room and if necessary some water can be added; never change the water completely. If the air in the room is very dry, it may help to moisten the flowerbuds once a day with a wad of cotton dipped in cool water. Every day you can see it swell — then the color will show — and in a little while you will have a glorious big flower spike.

This makes a delightful small gift, but be sure to order some for yourself too!

Huge Oriental POPPIES

Most Magnificent of all Poppies

Oriental Poppies are the royal representatives of this popular family. Nothing equals the dazzling colors of these giant Poppies during their period of bloom in May and June. Whether planted singly or in groups their large flowers and freedom of bloom render them the most conspicuous subjects of the garden. Plants grow 3 to 3½ feet in height. Almost any kind of soil suits them, but they do best in well drained, deep, rich loam. Set plants out in the early fall. Give them water occasionally during dry spells in the early part of the season.

PERRY'S WHITE. The flowers are a satiny white with a crimson-maroon blotch at the base of each petal. An old time favorite. A few clumps of Perry's White in your garden will create nothing short of a sensation. One of the best whites.

SALMON GLOW. A fine double salmon-orange color. The flowers are exceptionally large, fully 8 inches across. Spoken of as one of the most beautiful double salmon-orange Poppies. Strong, upright growing.

**Either of the above, \$.98 each; 2 for \$1.79;
6 for \$4.98; 12 for \$8.79.**

Wurtembergia

CHEERIO. Pink petals with dark red splashes of color in the cup. Here is a charming poppy that is really a worth-while addition to your garden.

HELEN ELIZABETH. Deeply crinkled petals of clear, unshaded salmon-pink without any splotches of other color. Considered by many as the best pink. It is a rugged grower.

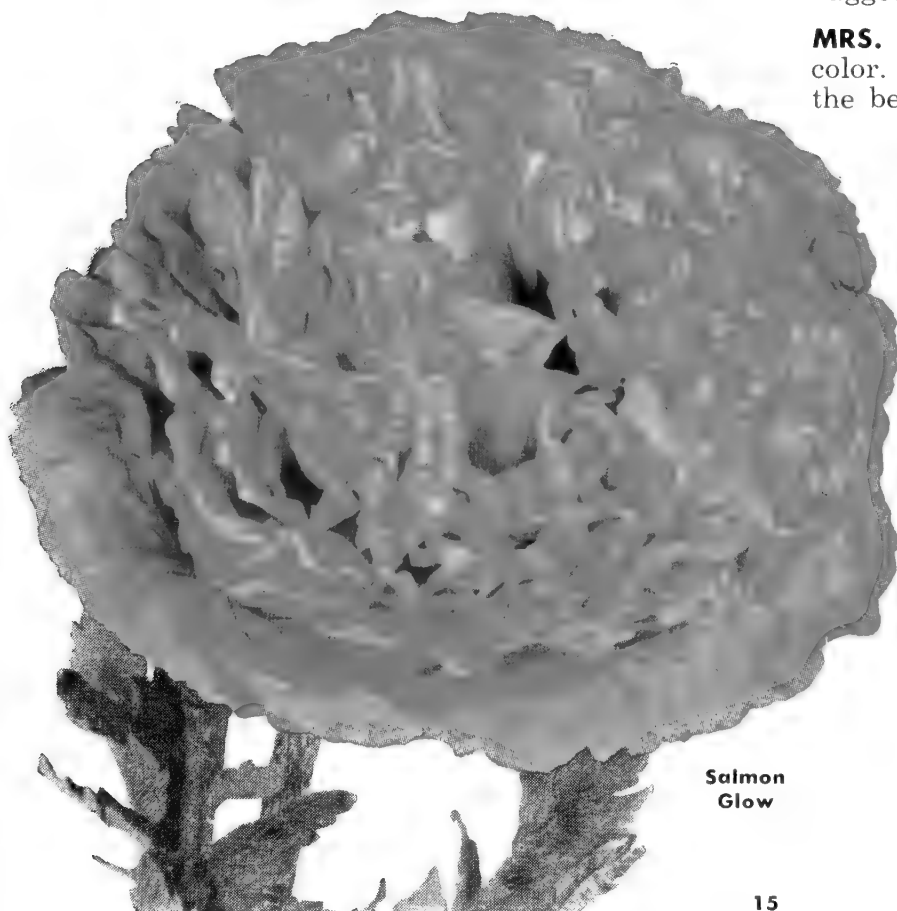

MRS. PERRY. Medium sized flowers of a light salmon color. A very fine variety. An old favorite and one of the best "Pink Poppies."

NEW PERFECTION. Delicate seashell-pink with feathery black stamens. Crisp heavily fluted petals of heavy substance. You will like it for its coloring and fine habit.

RIDGEWOOD BEAUTY. Fluffy pink flowers with inky black stamens. You'll want to add this fine color to your collection.

WURTEMBERGIA. Flaming scarlet with very glossy black blotches. A striking flower of great size and substance. An old favorite.

Will Provide Majestic Masses of Brilliant Color in Your Garden All Summer Long

BRIGADIER. Large flower heads of unusual and pleasing carmine-red with claret-pink shading. The eye is small and clear red. It has excellent qualities and is a good grower and blooms freely. A brilliant flower in the border.

CHEERFULNESS. The large florets are a sparkling pink. This variety blooms a little later, prolonging the season several weeks. Of importance is the fact that it keeps its color in bright sunlight.

ELIZABETH ARDEN. Heavy trusses are soft pink with a pale pink ring around the red eye. Particularly desirable because of its free flowering qualities.

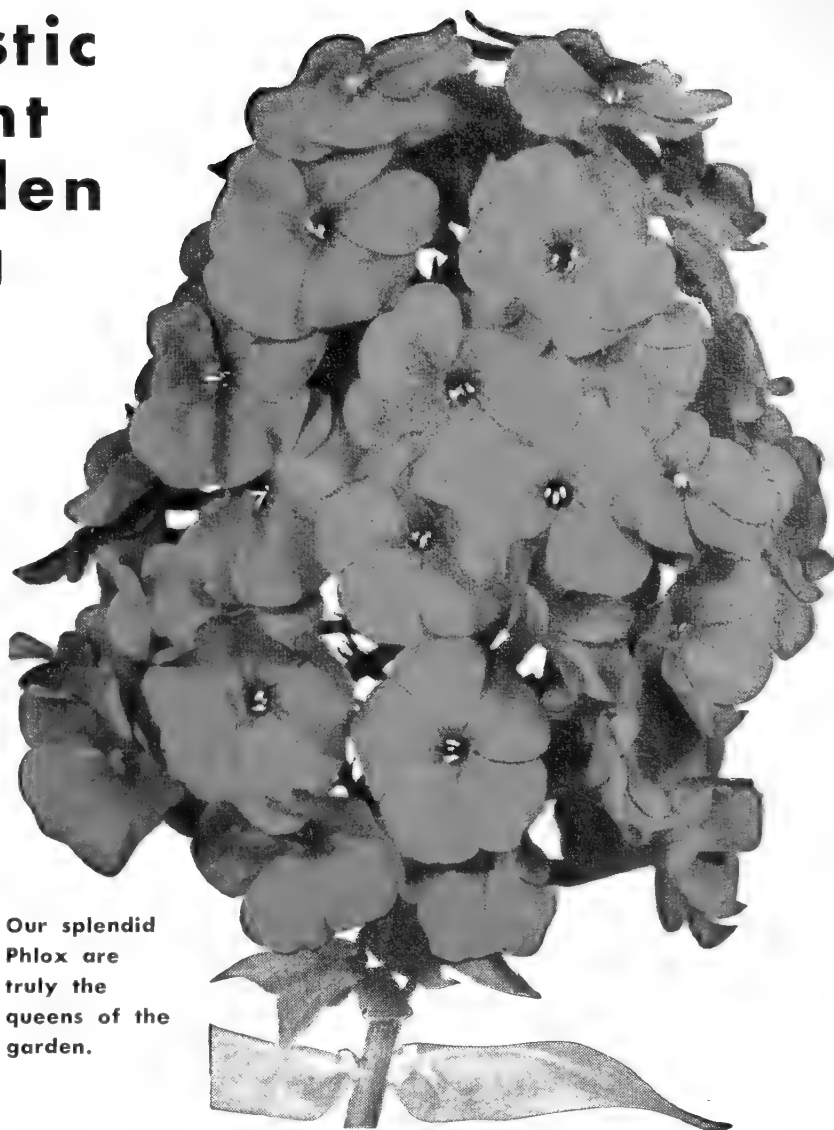

FLASH. One of the very best reds. Well shaped flower heads composed of large florets. Vigorous, and free bloomer. A good grower in any garden.

SAN ANTONIO. Rich ruby-red. Very large flower heads. It is a good grower with clean foliage and an unusual prolific bloomer.

PURPLE HEART. The color is a brilliant shade of deep blue-purple intensified by a darker center given sparkle by the dainty cream colored anthers. Individual flowers are large and are carried on good size trusses.

SIR JOHN FALSTAF. Color is a rich salmon-pink, one of the loveliest colors in the summer garden. It is robust, vigorous grower with sturdy stems and bold foliage. Height about 30 inches depending on soil conditions.

DIANTHUS Vaughan's Mixed
 Excellent strain of vigorous growing plants in a wide range of brilliant colors. Masses of colorful flowers during June. Desirable for beds and cut flowers; grow 1½ to 2 feet tall.

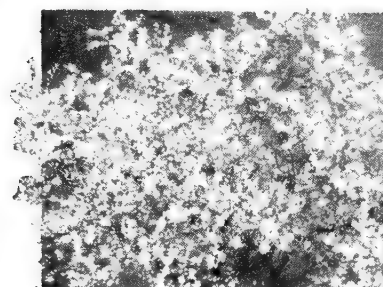

DIANTHUS Clove Pinks
 Double Clove Pink (Plumarius). 12 to 18". The favorite of the old-fashioned garden. Double carnation-like flowers with pleasing spicy fragrance, and many colors.

ALYSSUM Saxatile
 One of the showiest spring flowers with its large clustered blooms of bright yellow. Grows 10 to 12 inches high. Very hardy. Blooms during April and May.

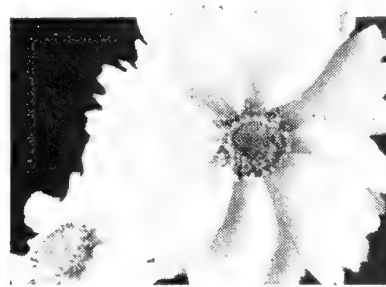

VIOLA Jersey Gem
 Rich shimmering violet-blue color. Blooms from April until snow falls. Its exquisite fragrance, free-flowering habit and extreme hardiness make this one of the finest Violas.

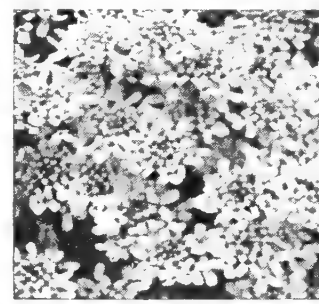

GYPSOPHILA Double White
 Masses of small white flowers, mostly double, are produced from July until frost on 3 ft. high bushes.

HOLLYHOCK Chater's Double Mixed. Extremely large flowers with frilled outer petals and a double rosette in the center. Very showy and easy to grow.

COREOPSIS An attractive new variety which bears double flowers of large size and superb gold color throughout the summer.

IBERIS Sempervirens
 Lovely white blossoms completely cover the plants in early spring; foliage is rich, dark green.

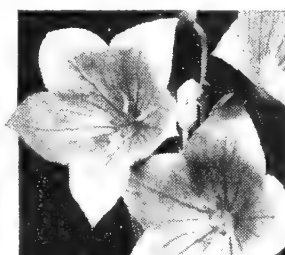

DIGITALIS FOXGLOVE
 Elegant strain of old-fashioned flowers which attain a height of 4 ft. Color range from white to pink to deepest rose.

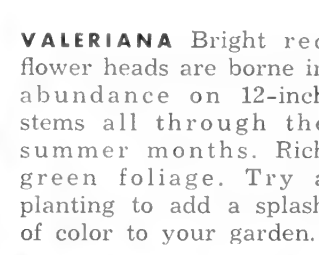

AQUILEGIA Mrs. Scott Elliott. Flowers of magnificent size. Colors cover all shades of lavender, purple, red, white, yellow, blue and pink.

IRIS Caesar's Brother
 Flowers are an unusually rich, black pansy-violet color. Strong grower and heavy blooming type.

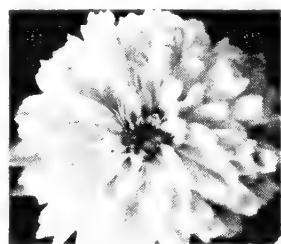

BLUE PLATYCODON
 A most unique garden flower. Produce large flowers. Gorgeous bell shaped blooms. Extremely hardy. Tall.

VALERIANA Bright red flower heads are borne in abundance on 12-inch stems all through the summer months. Rich green foliage. Try a planting to add a splash of color to your garden.

GAILLARDIA Portola Hybrids Extremely large flowering strain and noted for the wide range of deep colors which vary from reddish brown to gold.

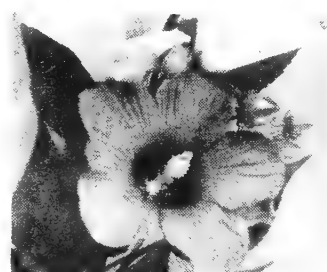

SHASTA DAISY Diener's
 Immense white blooms with very attractive fringed edge; nearly all double. Vigorous, tall growing with strong stems.

LATHYRUS Latifolia
 A climbing form of Sweet Pea. Blooms continuously from spring until fall. Colorful sweet pea blossoms are very fragrant.

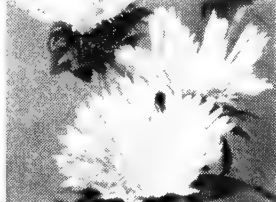

CAMPANULA Double and Single. Long, strong stems with large cup and saucer-shaped flowers in a wide range of colors.

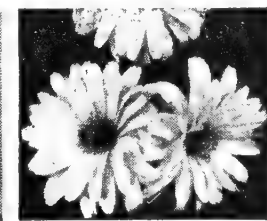

HIBISCUS Mixed
 Tall, erect canes bear large, bell-shaped flowers which often measure 7 to 8 inches across. Very hardy; attain a height of 4 ft.; bloom August.

CARNATIONS Mixed
 For spots of bright color, for delightful fragrance and for superb bouquets, they are unexcelled. Bloom all summer long.

STOKESIA Rich green ornamental foliage from which 12-in. stems arise, each topped by an exquisite blue aster-like bloom with finely divided petals.

HELIOPSIS Outstanding for their hardiness and fine yellow color. Plants are of compact growing habit, with strong straight stems.

PYRETHRUM Mixed.
 The finest strain of painted daisies in a wide range of mixed colors. Plants carry strong stems. Very superior.

SCABIOSA, Isaac House Hybrid. Extra large flowering strain noted for the variations of blue coloring in its blooms. June to September.

Large-Flowering Chrysanthemums

LEMONETTE. Very large, lemon-yellow flowers 5 inches and more in diameter. Disbudding makes them even bigger. It blooms from August to frost, with up to a dozen flowers on a plant. One of the favorite yellows; very striking.

GOLDEN TOUCH. Huge, rich, deep golden yellow. Wonderful ornamental form, like a green house Mum and 5 inches in diameter. Large, full blooms that really must be seen to be appreciated. Blooms from late August until frost.

BETTY LOU. A beautiful white Mum modestly touched with dainty pinkish yellow in center. Blooms are 3 inches across. A vigorous plant with healthy foliage that produces a large amount of blooms until frost. Good as a cut flower.

A Bushel of Beauty from every Plant

SWEETHEART. (A) Dark glowing pink. Perfection of form and vibrant, rich color have made Sweetheart a consistent winner. Particularly noted is the great profusion of flowers and their brilliant coloring. One of the best.

PINK DREAM. (Pat. 865) A soft silvery pink; center touched with yellow that charms everyone who sees it. You'll be delighted with the velvety texture and exquisite coloring. Very profuse bloomer. It is very showy.

HONEY CHILE. (Pat. 871) Magnolia-purple, giving it the effect of dark pink. Withstands early frost without damage. Its profuse flowering and winter hardiness will make this variety very popular.

TAM-O-SHANTER. Something entirely unique in Azaleamums — the first real orange color! Very hardy and vigorous. Blooms from August until frost. Add color and life to your garden in those last days before winter — plant Tam-O-Shanter.

SUMMER SUNSET. (C) (Pat. 561) The open flowers vary in shade from beautiful rich apricot to light orange, and as the season advances take on shades of buff or fawn, which gradually change to a suffusion of deep rose or coral, underlaid with traces of mauve or orchid. The buds are rich red just before opening.

\$4.89 each 2 for \$8.98

Fragrant French Lilacs

The richly fragrant and hardy Lilac has become one of the most widely planted of all shrubs. The old-fashioned Common Lilac has been grown for several hundred years, but modern French Hybrids are an improvement on it, bearing both single and double flowers in large heads and a wider range of color, as well as a longer flowering season. They also begin to bear flowers at a much earlier age than the older kinds. Lilacs grow freely in almost any good garden soil. They do best in full sun. Pruning is necessary from time to

time. Since many of the French Lilacs are grafted, all suckers produced below the point of union must be removed.

Charles Joly. Beautiful bright crimson. Double.

Decaisne. Bluish lilac or steel-blue. Single.
